Who we are

Deaf Ministries International (DMI) is an International Christian ministry network taking the gospel, education and employment to the Deaf all around the world.

Deaf Action (DA) is the secular aid and development arm of Deaf Ministries International in Australia, working to break the cycle of poverty and discrimination faced by the Deaf around the world.

DMI and DA are both Non-Profit Organisations.

Vision statement

We seek to establish resources and facilities to bring the message of Christ and aid to Deaf people. Our goal is to improve the life conditions for the Deaf in all parts of the world. Through church life and different social, economic and educational initiatives, we support the Deaf in their effort to achieve good and dignified lives.

About us

Deaf Ministries International was founded by Neville Muir, a Christian pastor and teacher of the Deaf. He had a love for the gospel and a love for the Deaf and made it his lifelong work to bring the two together.

It began in 1965 when he sponsored a Deaf Korean child through World Vision. In 1979, Neville and his wife Lill moved to South Korea to establish a small church for the Deaf in the basement of a Methodist church in the coastal city of Incheon. One of the four members of that first church was the boy Neville had begun sponsoring 14 years earlier. Over the next few years, a further 10 Deaf churches were planted in South Korea, all of which are today served by Deaf pastors, one being that little Deaf boy that Neville had first sponsored in 1965!

The mission has since spread to 21 countries around the world where churches, schools, small factories, farm projects, dormitories and Christian centres have been established to bring aid and the message of Christ to the Deaf.

After coming under the umbrella of various other mission organisations, in 2000 Deaf Ministries International was established in Australia as an independent global mission to the Deaf. In 2007 Deaf Action was also established to focus on DMI's aid and development projects, and to provide tax deductibility in Australia. In 2023, Neville was posthumously recognised as a Member of the Order of Australia for "significant service to the deaf community, and to international Christian ministry".

Serving the Deaf for more than 40 years and establishing more than 180 churches is a history we praise God for, but we believe it is only the beginning. We'd love for you to join with us as we continue to bring aid and a message of hope to the Deaf around the world.

Staff

Andrew Miller - International Director

Andrew (hearing) runs the global operations of DMI. Supposedly working from Australia, he could be anywhere in the world.

Susi Tjhai - Finance Coordinator

Susi (hearing) prepares all our budgets and sends the funds exactly where they need to go, ensuring compliance with Australian rules and regulations.

Kay van Namen - Sponsorship and Administration Coordinator

Kay (Deaf) keeps the Melbourne office humming and oversees our sponsorship programs.

Matthijs Terpstra - International Development Coordinator

Matthijs (Deaf) oversees our development projects, loan funds and ministries to the Deaf. Matthijs is in every respect the very future of DMI and a role model for the many Deaf under DMI's care.

Amy Jack - Communications Coordinator

Amy (hearing) is responsible for producing our newsletters and managing our website and social media. She brings superb design skills and infectious cheer to the office.

Senior Advisor

Gunnar Dehli - International Advisor

Gunnar (hearing) brings a wealth of wisdom to our team, providing spiritual leadership and advice to our senior management and field workers. He also leads discipleship schools in our fields.

2024 Report

In 2024, DMI saw a modest offering from a dedicated collective of supporters bless a multitude of Deaf people all around the world, not unlike five loaves and two small fish were once multiplied to feed a whole crowd. It's been an exciting year - a year of great

blessing, inevitable hardship, sad loss, grand adventure and fabulous development.

At the beginning of the year, the DMI International Board made the decision to focus more on raising Deaf leaders in the church, educational, business, sporting and artistic arenas. The results have been encouraging. We have seen a notable increase in the number of Deaf students studying in almost all our schools, especially those in secondary and tertiary education. We rejoiced to see three of our leaders in Rwanda graduate with diplomas and others in Uganda and DR Congo pursue the same. We currently have two youths (from Rwanda and Myanmar) attending a 7-month ministry training school in the Philippines, and other Deaf leaders participate in trainings of various kinds.

In September we mourned the loss of Steve McAllister. Steve was the Chairman of our International Board and the Secretary of our Australian Board. But much more than these, he was a true mentor, a wise leader, and a wonderful friend to all in the DMI family. His presence will be greatly missed. Two of our longest serving evangelists in Uganda passed away this year. Many lives associated with DMI families were lost in the forgotten wars of Myanmar and DR Congo.

Significant leadership changes have occurred this year. The International Board is in the process of appointing a new Chairperson. The Norwegian Board has appointed Heidi Woll as its new Chairperson while the Australian Board has appointed Peter Miller to the position of Secretary. Regarding staff, Matthijs remains our trusted International Development Coordinator, but in taking a position with another Deaf organisation, he has reduced his role in this capacity. Some of the work that he had been doing has been redistributed to others

on the Norwegian board and to the International Director. Following the resignation in January of Samuel Begumisa, we have tapped Josephat Mulongo (Kenya) and Joseph Hizza (Tanzania) to be joint African Senior Advisors. They are already demonstrating wisdom and proficiency in this role.

Financially, we have profound gratitude for the tremendous generosity of our supporters. Because of their faithfulness, we have not only been able to send full budgets to every field every month this year but have provided numerous additional blessings across many of our fields. Just a few examples are the new toilet block and three-wheeled bike for our school in Beni, DR Congo, new desks and sewing machines for our school in Minova, DR Congo, sewing machines and a new water pump for our school in Uganda, and numerous motorbikes to allow our evangelists in east Africa to reach more Deaf in urban and isolated regions.

We were also able to address several humanitarian crises resulting from the wars in DR Congo and Myanmar. Supporters gave \$24,000 in three days to meet the worst of our food crises in Myanmar and for this we are truly thankful. Many lives were saved. We were also able to provide medical (surgical) support for a number of our pastors, students and staff in the fields. Financial support to the fields also extended to weddings, funerals, and retirement packages.

Extensive support for Deaf-led businesses has been key to our operations again this year. The MREDF micro-loan program has seen 72 Deaf (39 female) start their own new businesses since January and commence a life of self-sustainability. 2024 was the first time the loan program has been implemented outside of Africa with projects started in the Philippines. In addition to the micro-loans, we were able to fund a mill for Rwandan Deafblind evangelist Bambanze, and chicken and crop farms in Uganda. A failed soap-making community project in northern Uganda is a reminder of the educational, financial, climate and cultural challenges that we face in our efforts to promote self-sustainable businesses.

This year saw three grants won which will significantly raise the quality of life amongst the Deaf in our fields. A \$50,000 grant provided clean water to 12,000 people in and around our school in Beni. A \$90,000 housing loan grant is bringing housing relief to some of our senior workers in the field who had been forced to live in unsafe areas because of soaring cost of living expenses. And a grant provided to our school in Kenya enables staff to access personal loans to meet emergency needs. These grants are making a huge impact in the lives of the Deaf.

We've been busy on the PR front. This year we produced two PR videos which include DMI staff and field workers as well as former Prime Minister John Howard's personal endorsement. The videos have already had a strong impact in creating new partnerships. The videos have now been produced in 5 languages, and this is expected to grow. Our newsletters are our primary means of updating supporters and running appeals and these are now being produced in 7 languages. A new blog, DMI Chats, was started in July and Amy keeps supporters updated in regular social media posts.

Deputations have remained an important means of maintaining and building new relationships with supporting partners. Between me and other staff we have been welcomed to speak in dozens of churches and schools - most Sundays of the year - and these presentations have been very effective in highlighting the work of DMI and raising long-term funding, along with annual fundraising events held in Sydney in Melbourne. It has also been encouraging to see the increase in deputations held around the globe by DMI representatives serving locally.

It's been wonderful to grow our team of representatives. We're so grateful for their support. This year, a concerted effort to work with and unite our country and regional reps has resulted in conference calls and improved communication between our reps, and from them to our supporters. It has also lifted the fellowship we share in our service to and with the Deaf around the world.

Organisational instability in Uganda, Zambia and Malawi have required our attention however most fields remain bastions of excellence and growth. Political instability in China, DR Congo and Myanmar have stretched our resources yet it's a joy to read updates in quarterly reports from all our fields and then relay these to our supporters in newsletters and other media.

Our new Africa Deaf Bible College in Rwanda has completed all paperwork so we expect construction to start eminently. Course content and operations manuals have been drawn up, and staff positions are being filled. The College will have the capacity to house and educate up to 300 Deaf and signing people from all over Africa. This is indeed one of the most exciting developments that DMI has ever experienced. The opening of the College is scheduled for January 2026.

Leadership structures, new facilities, and creative communication channels are good and necessary, but they are not at the heart of what we do. Our heart, our essence, our mission is best seen in the dozens of baptisms we have witnessed in our fields throughout the year. It is seen in the Fatherheart schools and other training events that we have held to equip our leaders in Christian ministry. It is demonstrated in our mission to plant new churches for the Deaf in South Sudan. It is enjoyed in the new Sunday school classes bringing protestant, Catholic and Coptic churches together to educate the Deaf in the Christian faith in Egypt. These developments best show our identity and our purpose. They also best reflect the heart of our founder Neville who, four years on from his passing, remains a cherished father figure to us all.

We are in a strong position going into 2025, not because of our bank account or because of our leadership teams or because of our wonderful group of supporters, but because we serve a God whose compassion and love is lavishly manifest to the Deaf we serve in His name. We face unafraid the many challenges which still lie before us - the completion of the Bible College in Rwanda, the planting of more Deaf churches across our fields, and the much needed trainings for our field staff and evangelists - and look forward to working with our partners, big and small, to raise the support needed for these worthy endeavours.

Andrew Miller
International Operations Coordinator

The Lord upholds all who fall and lifts up all who are bowed down. The eyes of all look to you, and you give them their food at the proper time. You open your hand and satisfy the desires of every living thing. (Psalm 145:14-16)

Supporting Countries

Recipient Countries

Our Goals

Gospel

Goals for increasing our Gospel / Ministry network:

- Establishing strong local church communities
- Establishing Deaf Bible schools on three continents: Europe, Africa and Asia
- Holding regular DMI International Conferences
- Providing discipleship training through Fatherheart seminars
- Organising local/continent leader (annual) gatherings

Education

Goals for improving our Education:

- Ensuring good quality education to qualify for government financial support
- Establishing Bible schools in three continents: Europe, Africa and Asia
- Providing education to 1,000 deaf children between ages 3 and 18 (currently around 700 children)
- Seeing 20 Deaf people attending tertiary/university (theology) institutions
- Providing education for 250 Deaf vocational students

Employment

Goals for improving our Employment projects:

- Self-Sustainability Fund (SSF) providing community business initiatives to generate at least 10% of local revenues annually to cover local DA/DMI administrative costs, e.g., teachers, evangelists, office costs etc. DMI can then decrease its partner's budget by 10% annually, simultaneously creating job opportunities from SSF
- MREDF group loans reaching at least 80 people every year in at least four countries (4 group loans with 5 persons per country) aiding 400 people in five years
- Having at least 40% female workers by 2026
- Every DMI school owning at least one agricultural field with three kinds of crops
- Deaf eco-system business keeping the money within the network's initiatives

Our Churches

The Deaf are one of the last groups in the developing world to be reached with the gospel. Over the last 40 years, DMI have planted 180 Deaf churches serving 6,000 people every week, and have developed numerous Bible training centres and commissioned dozens of local evangelists to take the message of God's love to their own people in their own sign language.

The result is transformed lives.

Those who were left without hope have been given real hope. Those who were once neglected as worthless are now loved and able to love others. Those who thought they had no future have found full life.

When I was 13 years old, I woke up one morning, and was suddenly deaf. This destroyed my whole world. But the church took me in. Today, my greatest passion is to be a role model for young Deaf Rwandan girls. I want to be able to give them skills, hope and a trust in the God who made them.

- Masengesho, (Rwanda)

I came to Christ from Buddhism through the work of the church here in Yangon. Because of the church, I can understand the gospel as it is signed in my own language. It strengthens my faith, encourages intimacy between members and brings unity to the community.

-Naing Naing Kyaw (Myanmar)

...and Pastors

Doo Hyong Lee – was the start of it all, the first child that DMI ever reached. He was so touched by the love and kindness of Neville, that he was drawn to the gospel and is today the pastor of a thriving Deaf church on Gangwha Island, South Korea.

“When I was 17 I audibly heard the voice of God. That’s extraordinary given that I’m Deaf! And God brought me into a faith that has led me to ministry.”

Mary Goreth -is a pioneer and elder of the Deaf Church in Rwanda. In no small part to Marie Goreth the Deaf Church has grown and expanded in Rwanda.

“Establishing the Deaf Church in Rwanda was a challenging journey. I visited the Deaf at their homes and in bars, shared the Good News with them. Later they agreed to join the church, now it has grown. I am grateful to God for His presence and thankful for the continuous foundational support provided by DMI since the inception of Deaf ministries in Rwanda.”

Community Projects

- providing self-sustainability

Kitchen Gardens, - DR Congo, Kenya

Our school kitchen gardens serve four purposes: meet an immediate food need, educate students in horticulture, provide employment for our school graduates, and bring an income into the community. They also - importantly - bring a measure of self-sustainability into the school communities. Our project in DR Congo became fully self-sustainable (meeting the above objectives) within 18 months of its inception. Our project in Kenya has begun and saves over \$20,000 a year in food costs to the school.

Sewing Workshop, Burundi & Kenya

In Burundi, we have five sewing workshops which train Deaf women (and men) in tailoring and help provide an income for them. Each year, these ladies give hundreds of dollars back to the Deaf community from their profits.

In Kenya, our sewing workshop was set up to give work to Deaf women with HIV providing not only an income but a place of refuge where they can feel loved and accepted despite their disability and disease.

Farm, Rice Mill and Shop, Ligao, Philippines

At our school and dormitory in Ligao, Philippines, we operate a farm and rice plantation. This farm provides work for the Deaf (often graduates of the school), income for the school and food for the dormitory. The school also owns and operates a rice mill, providing a vital service to local farmers. At the front of the school there is a small shop, selling farm produce and other groceries to the local populace.

Farm and Chicken Project - Uganda

Started in May 2024, the farm and chicken project employs local Deaf workers who earn a wage from the project and raise funds for our Ugandan operations. Hundreds of chicks are being raised, sold and more purchased again in increasing numbers as the business grows. The farm primarily grows corn although this will change with the season.

*Community projects stem from **funds** given to **communities**. They are not loans to be repaid. All proceeds are paid forward into the community.*

Grants

In 2024, DMI received three grants which are drastically improving the lives of the Deaf.

Clean Water Grant

This grant has enabled a bore hole to be dug in our school in Beni, DR Congo, providing water to 12,000 people via 5 taps on each of 10 arms running out into the neighbouring villages. 300 people studying or working in and around our school for the Deaf now have access to clean water.

Housing Loan Grant

The skyrocketing cost of living has severely affected the Deaf in developing countries, pushing them and their families into squalid and often dangerous areas. This grant provides an interest-free housing loan enabling our field workers to secure their own housing in safe areas. This will have a generational impact on the Deaf and their families.

School Loan Fund

Many of the staff at our schools live month to month, surviving on far less than other local workers. When emergencies arise, they have no means to pay. Our school in Kenya received a grant allowing staff to borrow money when needed. Repayment of loans is managed by the school.

Grants change lives. We encourage those connected to foundations or trusts to please consider providing a grant for the work that DMI and DA are doing. Similarly, bequests left to DMI can bring lasting change. Many needs remain in our fields. The Deaf are amongst the most vulnerable people in the world, and DMI is amongst the most responsible in managing support.

Micro-loan projects

- providing self-sustainability

Access to financial opportunities is crucial for businesses everywhere worldwide.

Deaf individuals in developing countries often face barriers in accessing financial resources and opportunities to start their own businesses. Traditional financial institutions may not trust or believe in them due to their disability, leading to limited access to funding to start or expand a business. Deaf people may also lack opportunities to develop their business skills due to limitations in their education or commercial network.

One solution provided by DMI to this challenge is the Menno and Ruth Ediger Development Fund (MREDF), which provides personal loans to groups of 3-5 people who want to start or grow a business. The group approach helps overcome limitations, promotes learning from each other, and provides support among the group in their own sign language. The borrowers also help each other by using their networks to get more clients for each other's businesses. This way, everyone's business can grow and succeed together, and the group can achieve their goal of successful loan repayment.

In 2024, we added the following projects to our growing network of micro-loan-funded businesses:

- * Philippines - Three groups for the first time, with a total of 13 participants (8 female)
- * Congo - Five new groups, involving 19 participants (10 female)
- * Tanzania - Four new groups, with 16 participants (10 female)
- * Burundi - One group with 3 participants (all female)
- * Uganda - Three groups, consisting of 10 participants (4 female)
- * Rwanda - Three groups, with 11 participants (4 female)

This year, the MREDF micro-loan program has seen 72 Deaf (39 female) start their own new business and commence a life of self-sustainability and financial independence.

Micro-loans are **loans to individuals**. They are to be paid back and all profits go to the individual and their family.

Our Schools

Immanuel Integrated Christian School, Kenya (K - 8)

Formerly the Immanuel School for the Deaf, IICS is a pioneering school, integrating Deaf and hearing students on the same campus. The Deaf students at this school regularly achieve the highest results out of any deaf school in Kenya. Many of the students go on to study at high school level or go into vocational training. In 2022, the school expanded to include secondary education, a milestone for the school and for the students attending. The dormitory allows students from remote areas to live at the school during term time. We currently have around 90 students enrolled.

Muir School for the Deaf, Myanmar (K - 6)

Situated in northern Myanmar towards the Indian border, the school educates approximately 24 students. The students come from villages and farming communities in the surrounding areas. Most stay in the dormitory at the school, together with some high schoolers who have graduated from the school. Recent civil unrest has interrupted studies and brought danger to the doorstep of the school, yet our teachers continue to bravely teach, and our students continue to cherish their education.

Beni School for the Deaf, D. R. Congo (K - 10)

Our Beni school has approximately 110 students enrolled. Many are teenagers who have never been to school before. Around a quarter of our students have lost one or both parents through war or diseases such as Ebola. In 2022, we were able to build a secondary school on the campus. This is a huge step, enabling the students to go on to higher education and preparing them for meaningful employment.

Minova School for the Deaf, D. R. Congo (K - 6)

Our newest school, it was started by Temo Mwinda with nothing but a piece of land given as a grant from the government. Today it has 64 students, 30 of whom stay at the school in the sparsest of conditions. The school rents a small farm which grows potatoes, beans and maize and these, more than anything else, sustain the population of the school. We hope to invest more in the school in the coming year.

Bacolod Dormitory, Philippines (K - 12)

In Bacolod we run a dormitory to provide accommodation for students from surrounding villages who are too far from a school for the Deaf. The younger students attend the Special Education Centre, and the older students attend the Bacolod City National High School. Because of restrictions introduced during the COVID pandemic, the Bacolod Dormitory is currently operating as a scaled-down boarding house.

Bicol Deaf Action (formerly Fishermen of Christ Learning Center) Ligao, Philippines (K - 12)

Our school and dormitory in Ligao cater for around 52 students. This school also has rice fields and a farm with pigs, chickens and plantations of coconut trees, avocados and other vegetable crops. It also has a rice mill for processing rice. Deaf farm workers live at the school and manage the farm. This supports the school and provides food for students in the dormitory. They also offer small business training for students who have graduated from high school and offer business start-up loans which the students pay off as their businesses become viable.

...our schools *(continued)*

Neville Muir Comprehensive School for the Disabled, Uganda (7-12+)

Located in Lira, in central Uganda, this is a vocational school which teaches carpentry, tailoring, hair dressing, building construction, cooking and farming. They also run classes in computer work, Bible teaching and other subjects. The school educates over 200 disabled, Deaf, blind, orphaned or very poor young people in life skills to become self-supported in their adult lives. Dennis Dagkene, the Director of the school, is Deaf, physically disabled, and was an orphaned street boy.

Immanuel Church of the Deaf Bible School, Uganda

This is the first of three planned Bible schools to train the Deaf to take the gospel to the Deaf. Situated in the capital Kampala, our Bible school trains people from all over Africa and currently has 12 students enrolled. Many of our graduates go on to evangelical and pastoral work. Future Bible schools are planned for Rwanda, Europe to serve the Middle East and the Philippines to serve Asia. In this, we will have three seminaries for the Deaf on three continents to see the gospel taken to the Deaf all over the world.

We also support Deaf students in Uganda, Zambia and Rwanda who attend non-DMI schools and colleges.

Student Sponsorship

Our child sponsorship program supports hundreds of Deaf students in seven countries across Africa and Asia. The sponsorship program enables these Deaf children to access quality education.

For many of the children, this is about much more than receiving the chance to learn to read and write. Many of our sponsored children come from incredibly poor backgrounds and remote areas. Trapped in a silent, frustrating world, they typically have no communication skills, no education and no hope. When they come to us, some of them don't even know their own name.

Our sponsorship program enables these children to come to school (sometimes staying in one of our dorms) to learn to communicate, to gain an education, to enter the Deaf community and to gain a true hope for their future.

Rona

*"I love going to the school here in Ligao. I have good friends and enjoy living in the dorm. The food is good. But the main thing is the education. I'm getting a quality education which is setting me up for success in my life."
-18 years, year 11 Rona Gomez, (Philippines)*

"I am in Grade 4. My best friend is Tessy. There are many teachers and pupils at my school. The school has a school bus and beautiful classes. We have a playground where we can play games after school. I hope to join university and become a nurse when I grow up."

-Iddah Auma, (Kenya)

Iddah

Meet Ben

- a testimony

"You're useless. You have no future. Just go home and stay away from people."

These were the words that Ben Buyinza received at the age of fifteen when he lost his hearing. His deafness, caused by meningitis, ostracised him from his friends and his eight siblings, and led him to the belief – warranted by all around him – that his life was all but over. Orphaned (with his siblings) from infancy, Ben had few people he could depend on, no schooling to guide him, and nothing but the taunts of others to comfort him.

So how does a person go from being so destitute to becoming one of the greatest evangelists in Africa? Now there's a story.

God uses the most unlikely people.

One day, after Ben had withdrawn from society, a blind man named Charles Ssalongo came to Ben's house. He was a member of the Ugandan Institute of the Blind and was an advocate for people of any dis-ability. He told Ben's sister (one of the very few who had been caring for him) that he wanted Ben to go to a vocational school for the disabled. His sister refused. The man insisted. Ben went. His sister spurned him.

One day, the late Rev Bulime came to the school and preached the gospel to the students. Ben was reluctant to get involved. He had doubts about God on one hand and was afraid he might be asked to do something on the other, so he sat at the back, slumping behind others, and hid. But it's hard to hide from God. In 2001, Ben accepted Jesus as his Lord and Saviour, was baptised, and began to serve in the church.

Serving in the church involved washing the clothes of the church members and cleaning the church building. Ben was content with this and continued serving in this way until he finished his studies at the school. For someone who was still living with the echoes of being useless and not having a future, he accepted it as his lot. But it was not his lot. Not by a long shot.

God uses the most gifted people.

One day a prophetess came to the church. She told him that God had called him to serve as a preacher. She said that he was not to look for other work. He was to be a preacher for God and that God would send him to other countries to preach the gospel. Ben was shocked and immediately began to look for other work! Like Jonah, he ran, but it's hard to run from God and before he knew it, he was enrolled in DMI's Bible School for the Deaf in Uganda.

At the school, Ben was a surprisingly strong student. Before he even graduated, Rev Bulime sent him on missions to preach in churches and in schools. Hundreds and hundreds gave their lives to Christ through his preaching and were baptised. Rather suddenly, this humble young man who had once been told that he was useless, without a future and should just stay home, was becoming one of the most effective preachers in all of Africa. This is a testament to Ben's faithfulness, to the wonderful work of the Bible school, and to the irrevocable call of God in a person's life.

God uses the strangest people.

One day a rotund white man with a love for the Deaf and a wicked sense of humour visited the church. That was Neville. In 2012, Neville, in his wisdom, sent Ben to Tanzania as a missionary with his new wife Veronica, also an evangelist. Ben and Veronica's work has been nothing short of remarkable. They have founded two churches for the Deaf and five fellowships in schools. Together, those congregations serve hundreds, and over the years thousands of Deaf have heard the gospel with multitudes coming to faith.

Useless? Without a future? Just stay home? Not by a long shot.

Our Resources

100% of our funds come from private donors

General funds

Singular or recurring donations for general use. Can be used for any area of ministry or in any aid and development program.

Student sponsorships

Recurring donations for education. Providing children, youth and adults Deaf education and vocational training.

Designated donations

Recurring donations for specific people or projects. Donors can support specific evangelists, employees or aid and development programs etc. Singular or recurring donations for special campaigns. Donors can support campaigns for food or disaster relief etc

Self-Sustainability Fund (SSF)

For-profit community projects aimed to increase local revenue to encourage self-sustainability. Given to Deaf schools, congregations or communities on a meso-level, these gifts do not require repayment by recipients.

MREDF Loan fund

Small business loans to start individual/group businesses with joint responsibilities and peer-to-peer support. For evangelists, church members and other volunteers on a micro-level.

Financial Report

Deaf Ministries International Ltd and Deaf Action Ltd Consolidated

Statement of Income and Expenditure and other comprehensive income for the year ended 31 December, 2023. These figures will be updated at the end of the next financial year.

	2023 \$	2022 \$	Change \$	Change %	Movement
Revenue	1,267,789	1,430,354	(162,565)	-11%	↓
Employee benefit expense	(217,134)	(217,827)	(693)	-0.3%	↓

Partnerships

DMI and DA is an organisation headed by an international board yet increasingly handing over and encouraging autonomy in the field through the establishment of boards in each country or region. Our goal is to transition away from a traditional top-down organisation to a network of independent but coordinated bodies. Several of our local units are led by committees which have not yet been formalised as boards.

International Board

- Gunnar Dehli** - (Chairperson) Norway. Gunnar (hearing) has been a much loved and leading figure with DMI for many years.
- Andrew Miller** - (Secretary) – Australia. Andrew (hearing) heads our Australian office and is our International Director
- David van Namen** - Australia. David (Deaf) has worked with DMI for decades. He is currently Chair of our Australian Board.
- Josephat Mulongo** - Kenya. Josephat (Deaf) has been pastoring the Deaf Church in Nairobi for many years. He is the National Director of DMI Kenya and is a leading figure in the leadership of DMI Africa.
- In Yeong Heo** - South Korea. In Yeong (Deaf) pastored the Chuncheon Church Of The Deaf for many years before moving on to focus on DMI's international work.
- Heidi Woll** - Norway. Heidi (hearing) chairs our board in Norway.
- Pablo Sbertoli** - Norway. Pablo (hearing) is a Norway-based Spaniard and is Treasurer of the Norwegian Board.
- Peter Miller** - Australia (hearing) is a retired businessman and is a member of our Australian Board.

Each member of the International Board, as with our regional boards, is a passionate and mature believer in Christ, and desires to see the mission of DMI achieved, the legacy of Neville continued, and the glory of God known.

DMI's head office is shared between the Melbourne and Oslo offices, overseen by the following boards:

Australian Board

Endorsements

“I can think of few organisations that apply practical Christianity in such an effective way. I commend Deaf Ministries International for the wonderful work it has done and I’m more than happy to lend my personal support for its ongoing growth and strength.”

“I was really blown away by what Deaf Action does in providing opportunity, hope and dignity for the Deaf. As we look for opportunities to give to the world around us, why don’t you consider Deaf Action as an organisation that you can support?”

“I congratulate the team who are behind Deaf Ministries International and the great work they do for a large community of Deaf believers. I have been privileged to speak at the Ministries’ fundraisers and also personally support their great work. Like many global ministries, they are another terrific example of God and Christ’s love in action at the coal face. I personally commend their great work and ask you to consider supporting the Ministry.”
